

Engage Process Modeler *Factsheet*

Engage Process Modeler

Bringing process management to the masses, making it human centric so everyone can get the benefits of higher efficiency, better quality and increased business results. That is our mission.

The **Engage Process Modeler** is aimed at **single users and small teams**, such as freelance consultants or start-ups. Are you looking to use us for your wider organisation? Have a look at our platform, the **Engage Process Suite** instead.

Our Modeler Editions include all basic features of our platform, allowing you to map processes quickly and run statistical analyses. Specific features allow you to use it in group sessions and workshops, boosting productivity and support from your teams.

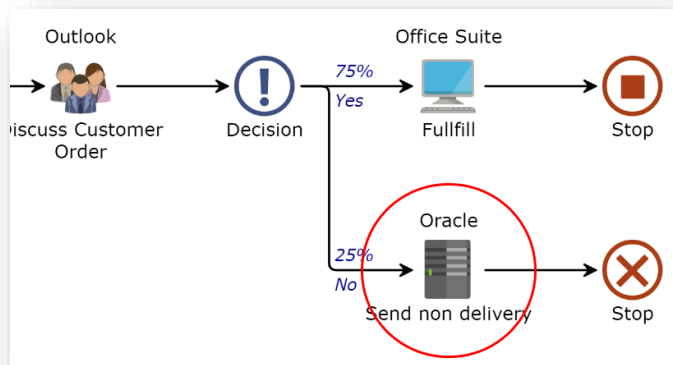

We are looking forward to working with you!

Ted Twaalfhoven, CEO

Engage Process Logic Engine®

Unique to our platform is the process logic engine, which allows you to speed up mapping without risk of making mistakes.

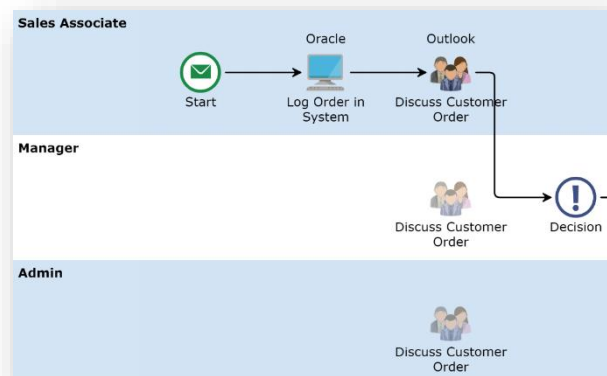

Drag & drop process mapping
Automated process structure
Logic checks and warnings

View Switching | Create a new process with 1 click

Ever designed a process map and needed a role based view? With Engage Process you do not need to map a new one, thanks to a one-click view switcher that shows the process the way you want to see it.

Create swimlane views
Analyse roles, applications, etc.
Maintain a single process map
